

# Friede & Goldman

NAVAL ARCHITECTS AND MARINE ENGINEERS

## News Release

On February 19, 2009, Friede & Goldman successfully delivered Vertical Riser Fingerboards and Riser Inspection Towers for the rig, Noble Danny Adkins, a 6<sup>th</sup> generation Bingo 9000 semi-submersible drilling unit built at Jurong Shipyard (Singapore) for Noble Corporation.

This is the first of two riser storage and inspection systems to be delivered for Noble semi-submersible drilling units. The next system is scheduled for delivery in June 2009 to the Noble Jim Day.

For more information on the Noble Corporation rig fleet, please visit their website at <http://www.noblecorp.com/default.asp>.

***Friede & Goldman** is the world leader in the design of mobile offshore drilling and production units. For over 60 years, Friede & Goldman has been the leading authority in innovative offshore design. More than 100 mobile offshore drilling and production units have been built according to F&G designs for operation around the world. The long and productive lives of these structures bear witness to F&G's commitment to quality.*
